Summary of Changes to the Internship Guide

Changes to the Internship process and Guide will be on-going as we strive to ensure authentic, comprehensive and challenging experiences for our administrative interns in the evolving field of school leadership.

The major changes to the Internship Process require all interns to address every building and district level ELCC leadership standard and element and to manage all internship documents and artifacts using an electronic portfolio. These changes require minor modification to numerous sections of the Guide. These changes are summarized below within the Guide:

- ∞ Added reference on cover to possible process differences in internship at either CITE or Jenmarc, need to contact Internship Supervisor (Front Cover)
- ∞ The 600 hour, 100 of the hours at district level is only a guide but interns must ensure they have a distribution of hours across all standard elements (p. 1 and elsewhere)
- ∞ Interns will need to generate an artifact that is closely linked for each of the 25 standard elements for BOTH building and district level leadership (for a total of 50 elements) (p. 1 and elsewhere)
- ∞ Interns will need to ensure that all building and district level leadership standard elements are addressed at least once within the 20 leadership activities (projects) (p. 1 and elsewhere)
- ∞ Provides examples of typical artifacts for insertion into the internship portfolio (p. 1 and elsewhere)
- ∞ All examples of leadership activities under each of the ELCC standards have been broadened to link to more elements and be applicable at both building and district level (p. 6-15)
- ∞ Interns will now use the on-line electronic portfolio system - Chalk & Wire – for uploading and managing artifacts and other internship documentation (no more ring binders!) (p. 2, 3, 26 and elsewhere)
- ∞ Language throughout indicating need for intern to highlight that portion of an artifact that applies specifically to a unique standard element when an artifact addresses multiple elements
- ∞ Removal/elimination of the intern Final Evaluation Reflection due to redundant with NCATE 3/7
- ∞ Removal/elimination of the Final Internship sign off – since Final Evaluation will denote completion
- ∞ The language of the building and district level ELCC standards has been combined for simplicity of application in this Internship Guide (so they apply to BOTH building and district level) (p. 6-15)
- ∞ Information about the E-Portfolio including: placement of artifacts; submitting portfolio; accessing support for Chalk & Wire; and the need to address SBL & SDL activities for all elements (p. 26)
- ∞ The organization of the E-Portfolio in Chalk & Wire: into sections; folders in each section; and a note that the E-Portfolio development is in process and subject to additional revision – contact the Internship College Supervisor for more information and updates (p. 27-32)
- ∞ In the Appendix: Additional reference of “(Provide Building and District Leader for Each)” where applicable (p. 37-39)
- ∞ In the Appendix: Added note to the ELCC Building Leadership Standards that the word “district” and “school” can be interchanged to represent both building and district level for purposes of planning (p.39)
- ∞ In NCATE Assessment – Intern Portfolio Reflection – wording has been modified to reference an electronic portfolio and need to address all SBL and SDL standards and elements (p. 44-72)

THE INTERNSHIP PROPOSAL PROCESS

Purpose of the Internship

The Educational Administration Internship should help the intern:

apply concepts, knowledge, and skills from study and previous experience to actual problems and day-to-day administrative duties;

become involved in the real administrative life of educational organizations, and learn from administrative colleagues; and

grow and mature, through the internship's challenges, disappointments, and rewards, into a competent and independent educational administrator.

For these reasons, the internship experience is designed to be substantial, diverse, and deep.

SUBSTANCE: The internship must include a minimum of 600 hours including 100 hours at district level of administrative experience. The actual length will depend on meeting the objectives of a proposal submitted to the Educational Administration Internship Committee. Once accepted, this proposal is a contract between the intern and the school site, and the intern and the College. Interns are expected to fulfill this contract even if more hours are necessary than originally anticipated.

DIVERSITY: The internship should provide practice and experience *in all of the standard elements* of the six ELCC Leadership Standards (25 total standard elements). Certain internship activities may address multiple standard elements. However, an intern shall submit a minimum of 20 separate internship activities covering the entire range of the standard elements.

DEPTH: The internship should place the intern in an active, administrative role. There should be opportunities for the gradual assumption of real responsibility (within the legal limits of delegated authority). For these reasons, full-time internships during the regular school year (based on leaves of absence or sabbaticals) are most desirable. If the intern must maintain some other job responsibilities, a reduced load should be considered, to enable the intern to take on actual administrative responsibilities during the regular school day. Internships involving summer activities can be arranged in some circumstances but, in most cases, they will require additional activities during the Fall or Spring semesters.

Prerequisites for the Internship

Students seeking an administrative internship at the College of Saint Rose must:

have been accepted into either the School Building Leader (SBL), School District Leader (SDL) Certification Program or the Master's Program in Educational Administration at the College; and

have completed the prerequisite **twelve credit hours** (four courses) in Educational Administration at the College, with a minimum grade of B in each course.

Administrative Internship Planning Checklist

BEFORE YOUR INTERNSHIP---

Think about your short and long term career goals.

Carefully review the Internship Guide and attend the Internship Orientation Meeting. Read it carefully. The Internship Guide can also be downloaded from The College of Saint Rose Educational Leadership web site at: http://www.strose.edu/academics/schoolofeducation/educational_leadership .

Begin to discuss a possible internship with your supervisors and/or other potential internship sponsors (AT LEAST 6 MONTHS BEFORE YOU HOPE TO START).

Determine whether you are doing a full time internship. If you are working on the internship work full time, the internship may be completed in one semester. If you are doing the internship while teaching (working another job) full time, you **must** take two semesters to complete the internship.

Meet with the EDA Internship Coordinator if you need help drafting your proposal.

Decide with your supervisors about when you will start your internship, what possible internship activities you will be working on to address the leadership standards, what hours you will work (600 total including 100 hours of district level work), and who your site supervisor will be.

Write a letter of intent to the EDA Internship Coordinator, specifying the expected dates and location of the internship.

Complete at least 12 EDA credits at Saint Rose.

Review NCATE/CAEP assessments #3 and #4 found elsewhere in this guide.

Review sample internship proposals.

Draft your proposal and get input from your site supervisor. Consult the Internship Coordinator if you have questions.

Arrange for a **letter of support** for your internship to be sent by your superintendent, board of education or Principal to the EDA internship coordinator. (see sample letter)

Make final revisions in your proposal, and submit it to the Internship Coordinator, along with the application form (AT LEAST 6 WEEKS BEFORE YOUR STARTING DATE).

Review and familiarize yourself with Chalk & Wire which will function as your Internship E-Portfolio. Interns can access and upload artifacts to the Internship E-Portfolios from anywhere, at any time. For more information: <http://techtalk.strose.edu/cw/chalk-wire-support-central>. You may also contact the ITS Help Desk by calling 518-454-2190.

After receiving approval of your proposal, register for EDA 546, Internship Seminar, immediately. (If you intend to complete the internship in one semester, you must register for EDA 546 and 547 concurrently.)

Begin your internship on the scheduled starting date.

Complete fingerprinting requirements. Fingerprinting clearance is required prior to the educational leadership internship. Fingerprinting information is available on the New York State Education Department "TEACH" website at <http://www.highered.nysed.gov/tcert/teach>.

DURING YOUR INTERNSHIP--

Meet at least twice with your college supervisor, and as often as called for in the proposal with your site supervisor.

Register for EDA 547 for second semester.

Attend the scheduled internship seminars at the college during the first and second semesters of your internship. If you are doing a full-time internship and intend to complete the internship in a single semester, you will need to continue to attend the seminars until completion and submittal of all internship materials.

Maintain your daily log and complete your monthly reports promptly.

Complete the 20 activities (projects) per the internship proposal.

Maintain copies of all materials experienced in the internship – as possible artifacts.

Each of the 20 required projects will generate one or more artifacts. Each intern must select and upload into Chalk & Wire one artifact for each ELCC standard element by the completion of the internship. The artifact should be the best representation of the work by the intern for each standard element. The artifact should be closely aligned to the standard element. Interns may replace an artifact with another high quality artifact at any time prior to submittal of the E-Portfolio to the College Supervisor. If you are using an artifact for multiple standard elements, remember to highlight for each element that portion of the artifact that most closely relates to each standards element.

Consult your college supervisor if problems arise or if you need to revise your proposal.

BEFORE THE END OF YOUR INTERNSHIP--

Complete your E-Portfolio, including the Final Reflective Paper, Evaluations, and NCATE Assessments.

Meet with your college supervisor to review your total internship.

Complete any unfinished business raised at that meeting.

WRITING THE PROPOSAL (See Sample pages 16-17 and Appendix pages 33-38 for template)

The internship proposal consists of the following seven parts:

- 1) An application form (See Sample elsewhere in Guide; use Template provided); this should be the first page of the proposal;
- 2) A Philosophical Statement (The interns's philosophy of education and educational leadership, and how that philosophy will shape the internship; approximately one page, typed, single spaced);
- 3) A summary of the prospective intern's background as an educator (in an up-to-date resume);
- 4) A list of coursework completed in the Educational Leadership program, indicating semester each course was taken; and whether they were taken at St. Rose or elsewhere;
- 5) A proposal of the internship activities and evaluation, including an outline of the internship tasks the intern will undertake in each of the ELCC Standards, broken down into the standard elements for each, with the method for documenting each assignment/activity (See Sample elsewhere in Guide; use Template provided);
- 6) An overall description of the internship assignments and evaluation planned (A brief overview of the

internship, mentioning the ELCC Standards, broken down into the standard elements; approximately one page, typed, single-spaced); and

7) A statement of benefits to the sponsoring district (an explanation of how the assignments, and the intern's development, will benefit the district or organization sponsoring the internships; approximately one page, typed, single-spaced.)

THE SUPPORTING LETTER FROM THE SUPERINTENDENT OR BOARD

A letter of support from the Superintendent or Board of Education or Building Principal that has jurisdiction over the prospective internship is required by the College; ***IT MUST BE RECEIVED BY THE COLLEGE BEFORE THE INTERNSHIP CAN BEGIN.*** This letter may typically be obtained from the Chief School Officer (Superintendent), and should be submitted with your internship proposal. This letter often includes a copy of the resolution approved by the Board of Education appointing the intern (NOTE: Some districts do not require Board of Education action appointing interns. NOTE: OCCASIONALLY AN INTERNSHIP TAKES PLACE IN MORE THAN ONE DISTRICT OR AGENCY. IN THESE CASES, A LETTER OF SUPPORT MUST BE OBTAINED FROM EACH JURISDICTION.

The letter of support must be on school district letterhead and should contain the following:

1. Verification that the internship experience has been approved by the school district or educational organization.
2. Length of time the internship is to cover, including beginning and ending dates.
3. Time allotted each day specifically for administrative duties.
4. Job title of the internship and brief description of the activities.
5. Identification of the administrator who will serve as the site supervisor.

The letter of support should be submitted with your internship proposal and emailed to:

ILENE@citeonline.com

NOTE: OCCASIONALLY AN INTERNSHIP TAKES PLACE IN MORE THAN ONE DISTRICT OR AGENCY. IN THESE CASES, A LETTER OF SUPPORT MUST BE OBTAINED FROM EACH JURISDICTION.

DUE DATES FOR ALL INTERNSHIP MATERIALS

If beginning internship in the Summer:	Prior to the conclusion of your fourth class or April 15th, whichever is earlier
If beginning internship in the Fall:	July 30th
If beginning internship in the Spring:	December 1 st

(Note: These dates are subject to revision by each program

Description of the ELCC Standards, Possible Internship Activities, Tasks and Documentation

The following are some suggested activities that generate artifacts for the Internship Portfolio and ensure the administrative intern experiences a comprehensive internship consistent with the six Educational Leadership Constituent Council (ELCC) leadership standards listed below. After each activity, the applicable *standard element* (or multiple elements) linked to the activity are identified. Also provided is the level of the activity - building level (BL) or district level (DL). A single internship activity may apply to more than one standard element. The internship candidates should be strategic in also selecting or proposing activities that *could apply to both the building and district level.* Any internship leadership activity listed in **bold** *must be included in the proposal.* Candidates may propose other activities that are linked to one or more of the standards as listed below.

ELCC Standard 1: A building-level education leader applies knowledge that promotes the success of every student by collaboratively facilitating the development, articulation, implementation, and stewardship of a shared school vision of learning through the collection and use of data to identify school goals, assess organizational effectiveness, and implement school plans to achieve school goals; promotion of continual and sustainable school improvement; and evaluation of school progress and revision of school plans supported by school-based stakeholders.

ELCC Standard Element 1.1: Candidates understand and can collaboratively develop, articulate, implement, and steward a shared vision of learning for a school.

ELCC Standard Element 1.2: Candidates understand and can collect and use data to identify school goals, assess organizational effectiveness, and implement plans to achieve school goals.

ELCC Standard Element 1.3: Candidates understand and can promote continual and sustainable school improvement.

ELCC Standard Element 1.4: Candidates understand and can evaluate school progress and revise school plans supported by school stakeholders

ELCC Standard 1 Internship Activity Examples

- a. Review the school's or district's vision, mission, and goals and develop an informative article for the district newsletter that helps build stakeholder support. (1.1 – 1.4) BL/DL
- b. Select a specific K-12 discipline, examine and evaluate the curriculum regarding consistency with the Common Core standards, share a written report with the site supervisor. (1.1-1.4; 2.2, 5.5, 6.3) BL/DL
- c. Serve on a school or district curriculum team reviewing and implementing curriculum changes. (1.1-1.4, 2.1, 2.2, 4.1, 5.5) BL/DL
- d. Review recent literature on school improvement and "best practices" that support the school or district vision and share with administration, faculty, and the site supervisor. (1.1-1.4, 2.2, 2.3, 2.4, 3.2) BL/DL
- e. Select a best instructional practice supported in the literature and consistent with the school vision, and develop a plan for its implementation and use in the school building or district-wide. (1.1-1.4, 2.2, 2.3, 2.4, 3.2) BL/DL
- f. Help plan for or coordinate transitional activities for students as they progress to higher grade levels. (1.1-1.4, 5.1, 5.3, 5.5) BL/DL

Note: If it is necessary to change or substantially amend an internship leadership activity, notify your college supervisor and put the amended intern leadership activity in writing to your supervisor for his/her approval. Certain internship activities may address multiple standard elements. However, an intern shall submit a minimum of 20 separate internship activities covering the entire range of the 25 standard elements over the six ELCC standards for BOTH building and district level (total of 50 elements).

INTERNSHIP ROLES AND RESPONSIBILITIES

The College Internship Coordinator

The College Internship Coordinator is responsible for:

- Preparing students prior to the internship experience by providing information as requested.
- Conducting or arranging Internship Orientation Sessions.
- Assisting interns in preparation of Internship Proposals.
- Collecting, reviewing, providing feedback for and approving draft Internship Proposals.
- Assigning College Supervisors to interns.
- Supervising College Supervisors to interns.
- Conducting Internship Seminars EDA 546 and 547, as assigned.
- Hiring, supervising and evaluating adjunct College Supervisors.
- Maintaining all internship files.

GUIDE FOR SITE SUPERVISORS

Introduction

The Education Administration Program faculty at the College of Saint Rose appreciate the commitment that site supervisors make in helping a graduate student complete an administrative internship. The commitment is a mutual one, and the experience should be mutually beneficial.

If you have any questions or concerns, please feel free to contact the Internship Coordinator, at 516-221-2936, or your intern's college supervisor. ***IT IS VITAL THAT, IF ANY PROBLEMS ARISE REGARDING THE INTERNSHIP, YOU INFORM THE INTERNSHIP COORDINATOR AND/OR THE COLLEGE SUPERVISOR IMMEDIATELY.***

Commitments

...of the Site Supervisor to the Intern:

to provide the student with ideas for internship leadership activities consistent with the ELCC leadership standards that will result in an experience of substance, diversity, and depth, with varied opportunities for leadership;

to ensure that the appropriate letter of support is obtained from the superintendent, board of education or other governing body, or its representative;

to notify staff members of the intern's role and responsibilities, in order to smooth the entry into the new role, and to provide a formal introduction to all staff at the earliest opportunity;

to mentor the intern in every way possible, scheduling regular meetings with him or her, being available for consultation, providing opportunities for professional growth, and giving honest, open, and supportive feedback;

to provide the intern with a final evaluation based upon satisfactory completion of the six ELCC standards, and the 25 standard elements within the Standards (as described on pages 6-16 in this Internship Guide) using the formats provided by the College, and to review and discuss them with the intern;

to contact the college supervisor or program coordinator to discuss problems or concerns, or to give suggestions for the improvement of the program.

...of the College to the Intern

to assist in locating an appropriate site, if necessary;

to assist interns in designing proposals of substance, diversity, and depth;

to assign a college supervisor who will visit the intern at least three times at the internship site, and be available to confer with both the intern and the site supervisor as needed;

to provide regular intern seminars for support, discussion, and updating on important issues;

to review the intern's proposal and final portfolio with reasonable expeditiousness, so as to facilitate the timely beginning and ending of the internship or residency.

...of the Intern to the Site and the College

to design an internship experience of substance, diversity, and depth;

to devote a minimum of 600 clock hours including log to the internship experience;

to continue the internship until the concluding date on the approved proposal, and until the internship leadership activities in the proposal are completed, unless released by the site supervisor and the College;

to provide the site supervisor with a copy of the approved proposal, and to confer with both the site supervisor and the college supervisor in a timely fashion about any major modifications in the proposal;

to attend internship seminars, and participate actively;

to complete internship documentation in a timely fashion-- maintaining a daily log, filing monthly reports, and compiling a final portfolio;

to self-evaluate honestly and reflectively, and to be open to evaluative comments from both supervisors.

THE COLLEGE SUPERVISOR

Upon approval of the Internship Proposal and registration for EDA 546, CSR assigns a College Supervisor to each intern. The College Supervisor is responsible for:

Providing technical assistance, mentoring, coaching, support and advocacy

Meeting with each intern a minimum of 2 times during the internship with at least one of these meetings at the school site

Meeting with the Site Supervisor, at least once and preferably twice, to discuss the intern's performance.

Reviewing Monthly Reports and providing feedback to interns.

Reviewing the internship portfolio

Determining when the internship is satisfactorily completed

Determining grades for EDA 546 and 547 on a semester basis. Grades must be submitted in accordance with The College of St. Rose semester grade deadlines.

Completing all NCATE/CAEP Assessments as required through Chalk and Wire.

THE INTERNSHIP SEMINAR (Required Courses EDA 546 and 547)

A series of seven seminars are required for each intern. Seminars, along with their topics, are held throughout the year and are posted on the CITE website (www.citeonline.com). These seminars provide interns with opportunities for dialog with fellow interns, presentations, guest speakers, case studies and panel discussions technical assistance, network building, problem-solving and sharing of internship experiences discussions about critical educational issues of concern to interns.

Note: Interns must attend seven seminars during their internships in order to broaden their experience and enhance their networking skills. Students with approved full-time (one-semester) internships must complete four seminars. **(Note: Students with approved full-time (one-semester) internships who do not complete their internship in one semester must complete 7 seminars)**. No internship paperwork will be processed by CITE with the College until all seminars are complete. The initial Internship Proposal Seminar is required as is attendance at one (1) Test Prep seminar. Other seminars are at the discretion of the intern. Students will receive a grade (Pass, Incomplete or Fail) for EDA 546 and EDA 547 from their College Supervisor.

EXPECTATION FOR COMPLETION OF THE INTERNSHIP

Internship students are expected to work diligently in meeting all requirements and completing all proposed leadership activities within three successive academic sessions of beginning the internship inclusive of the summer session (e.g. If a student begins in the summer academic session, they would be expected to complete all internship requirements before the end of the next spring semester: summer, fall & spring.) The student's internship academic session begins on the first day of EDA 546. Completion means all activities are completed, evaluations have been completed, and the portfolio has been submitted for review to the College Internship Supervisor. (see Appendix page 103)

If a student has not completed the internship requirements within three successive academic sessions, the student may apply for one extension 90 days to complete all requirements. An Internship Administrative Fee will be charged. Failure of any student to complete the internship within the three

successive academic sessions plus the 90 day extension will result in the student receiving an F – failing grade for the course.

MODIFYING THE PROPOSAL (Significant Changes)

It is possible that during the internship an unforeseen change in the school or organization may occur or new opportunities for internship leadership activities may arise. Such changes may call for **significant changes** in the intern's proposal. The procedure for modifying the proposal is as follows:

- a) The intern, the site supervisor, and the college supervisor discuss and agree on any proposed changes before the changes are made.
- b) The intern writes a letter to the college supervisor, describing the agreed-on modification, and signed by both the intern and the site supervisor.
- c) The modification is accepted upon approval of the college supervisor, communicated in writing. In any uncertainty, it is the responsibility of the intern to communicate with the college supervisor.
- d) The intern forwards copies of the approved modification to the site supervisor and the Internship Coordinator. S/he also uploads a copy in the final portfolio, and modifies the subsequent daily log and monthly reports accordingly.

Less significant changes in the content of internship leadership activities may be agreed upon by the intern and college supervisor in email correspondence.

Documenting and Evaluating the Internship

The intern documents the internship for review by the site supervisor and the college supervisor. It is important for the intern to carefully follow the documentation process in Chalk & Wire for your electronic portfolio. In general, it is a wise idea for administrators to be economical in their written communications. Interns should practice saying a lot, clearly, in few words.

The Daily Log (See Sample form on Page 23, See Appendix Page 40 for Template)

The intern keeps a Daily Log which records all the activities of the internship and is included in the final portfolio. A log should be completed for every day during which any amount of time is spent on the internship. The log helps the intern to keep track of accumulated time, to review activities in meetings with the supervisors, and to write the Monthly Report. **IT ALSO PROVIDES AN OPPORTUNITY, HOWEVER BRIEF, TO REFLECT ON AND EVALUATE EACH DAY'S ACTIVITIES.** (if necessary)

The Monthly Report (See Sample form on Page 24, See Appendix Page 41 for Template)

The Monthly Report serves three purposes: to enable the intern to review progress toward completing the internship, to provide a basis for discussion of progress and problems with the site supervisor, and to update the college supervisor. The Daily Log should provide most of the material for this report.

The Monthly Report should be submitted to the site supervisor for review. The intern must **email a copy** to the college supervisor within ten days after the end of the month. The College Supervisor will review each Monthly Report and email feedback to the intern.

NOTE: THE DAILY LOG MAY BE HANDWRITTEN, BUT THE MONTHLY REPORT MUST BE TYPED AND SUBMITTED BY E-MAIL TO THE COLLEGE SUPERVISOR BEFORE THE TENTH DAY OF EACH MONTH.

The Internship Leadership Activity Hours Chart (See Sample form on Page 25, See Appendix Page 42 for template)

The internship must include a minimum of 600 hours including at least 100 hours at district level of administrative experience within each of the six ELCC Leadership standards and accompanying elements. *The actual distribution of intern hours across standards and building and district levels varies by intern and the unique character of the internship.* However, interns are cautioned to distribute the internship hours across all ELCC Leadership Standards to ensure fully addressing each area of the proposal. In developing proposed leadership activities, interns should plan strategically to ensure that many of the leadership activities included in the proposed plan have both a building and district level orientation since each intern will be evaluated at the end of the internship on both building level and district level internship experiences within each of the ELCC Leadership standards and elements.

The purpose of the chart is to keep a monthly record of how many hours are logged under each ELCC Standard to be able to determine which Standards interns may be logging too many or too few hours. The chart of hours is required to be handed in with each Monthly Report as a management tool for both the intern and the College Supervisor. See the template for the chart at the end of this Guide.

The Internship Final E-Portfolio

The internship electronic portfolio contains the complete documentation of the internship experience including artifacts supporting each of the ELCC Leadership building and district standards. Upon completion of the internship, the internship electronic portfolio (e-portfolio) is submitted electronically to your college supervisor for review. Credit cannot be given for the internship until it is completed, submitted to the college supervisor, reviewed, and accepted.

The e-portfolio should be managed and updated regularly throughout the internship using Chalk & Wire, e-portfolio management software. Do not wait until the end of the internship to begin assembling the portfolio. The Internship College Supervisor and the intern only have access to the portfolio. You may continue to update the leadership electronic portfolio until you submit the portfolio for assessment. Once this is done in Chalk & Wire, no further changes are permitted by the software and the portfolio is “locked”. Your Internship College Supervisor will be notified electronically by Chalk & Wire that the portfolio is ready for assessment. *You should be careful to not submit the portfolio until the end of the internship after uploading all documentation and artifacts.* Your College Supervisor may have on-line access to review your portfolio during the internship if they request your collaboration permission.

Although you will be managing and saving your internship documents electronically, you are encouraged to maintain a hard “back up” copy of each artifact. Interns can access and upload artifacts to the Internship E-Portfolios from anywhere, at any time. For more information on Chalk & Wire: <http://techtalk.strose.edu/cw/chalk-wire-support-central> . You may also contact the ITS Help Desk by calling 518-454-2190.

The move to an electronic on-line portfolio from three-ring binders and hard copies of hundreds of documents remains an on-going process. **Therefore, the information listed below is subject to minor modification. It is possible that the location of uploading of certain documents may be adjusted. Your College Internship Supervisor will notify you of any changes in the process as we continue to adjust and improve the on-line portfolio procedures.**

For each of the six ELCC Standards for school and district leader levels, you will also need to upload a written reflection. There will be a total of 12 reflections (one for each of the six ELCC standards for both SBL and SDL). The required content of the reflections can be found in the evaluation rubrics in Assessment SBL#3 and SDL #7 in this Guide. These reflections should be completed after uploading all final artifacts and completion of the 20 leadership projects or activities.

Within Chalk & Wire, your internship documents will be organized into sections. Within each section are labeled folders. You should upload documents and artifacts into specific labeled folders within sections. The sections and folders have already been created for you. The sections and folders within Chalk & Wire are listed below. Sections are in bold underlined, and folders are indicated below as bullets.

SECTION 1: COVER PAGE & ACCEPTANCE

- Internship Cover Page:
Internship E-Portfolio
Internship in Educational Administration
College of Saint Rose
Albany, New York

followed by

Intern's name, title, and site
Dates of internship
Areas of specialization (if any)
Name of site supervisor
Name of college supervisor

SECTION 2: CORRESPONDENCE WITH THE COLLEGE OF SAINT ROSE

- Correspondence: Internship Coordinator/ College Supervisor
Include all significant communication (e-mails, letters, etc.) between the intern and College Supervisor or Coordinator.
- Internship Application
- Final Internship Proposal
Include documentation of all changes and iterations of the document *including the final updated internship proposal*.
- Supporting Letter
Internship support/approval letter from the Superintendent , Board of Education, or Chief Executive of the Organization.

SECTION 3: MONTHLY LOGS

- Monthly Journal Reports

SECTION 4: BUILDING & DISTRICT INTERSHIP LOG OF HOURS

- Building Level Internship Hours Log
Include all hours by month for each of the 6 ELCC Building internship hours. If the activity is shared between building and district, divide the hours between the two accordingly.

- District Level Internship Hours Log
Include all hours by month for each of the 6 ELCC District internship hours.

SECTION 5: INTERSHIP SEMINAR MATERIALS

Include the agendas of all seminars attended. You need not include materials handed out at seminars.

SECTION 6: INTERSHIP ARTIFACTS LINKED TO ELCC STANDARDS

You must submit a minimum of 20 separate internship activities (projects) addressing all ELCC Leadership Standards for building and district leaders. Over the course of the 20 selected projects, artifacts must be generated so each leadership standard element is closely linked to at least one artifact. The selected projects will likely address multiple standard elements and you should propose activities that apply to both the building and district level. However, an internship activity or project applying to both building and district level must include authentic experience and perspectives for both building and district level. Just listing an activity as linked to both levels is insufficient. Remember that when an artifact is submitted for multiple leadership standard elements, the intern should highlight that portion of the artifact that most closely links to each of standard elements addressed by uploading of the artifact.

Your internship will be evaluated based upon the content and quality of the artifacts, and the strength of the link between the standard element and the artifact, or evidence. If using an artifact linking to multiple elements, you could receive a higher rating on one of the standard elements where there is a much stronger link to an artifact than there is to another standard element where there is only an indirect or vague link.

Where an artifact represents multiple elements (which is likely), interns may upload the SAME artifact into any element folder linked to that leadership activity. Remember, *only ONE artifact can be uploaded for each element but that artifact can be uploaded to additional elements that are linked to the leadership activity. Select the highest quality, most closely linked artifact for each standard element. Highlight that portion of the artifact that pertains to each of the elements addressed.*

Leadership artifacts are evidence. Artifacts might include agendas, reflections, reports, pictures, graphs and charts, handouts, web sites, technical analysis, presentations, PowerPoints, communication documentation, workshop materials, etc.

SECTION 7: INTERNSHIP REFLECTIONS ON THE E-PORTFOLIO

(NCATE SBL #3 and SDL #7 ASSESSMENT)

This is one of two culminating assessments of the intern upon completion of EDA 547 Internship Part 2. The assessment applies to both school building and district level activities. The assessment consists of the intern reflecting on the internship experiences using the artifacts for each of the ELCC building and district leadership standards. Interns should accompany the artifacts with reflections within which they draw conclusions regarding how their visions of leadership unfolded in rich, in-depth and authentic experiences; the reflections explain the significance of the Portfolio artifacts for portraying those conclusions.

The reflections provide context for the artifacts and, together with the artifacts, demonstrate candidates' visions for mastery of the ELCC Standards 1-6 which indicate the extent to which the candidates' visions for competency-achievement were realized.

SECTION 8: FINAL INTERNSHIP EVALUATION (NCATE SBL #4 and SDL #4 ASSESSMENT)

This is the culminating assessment of the intern. The Intern and College Supervisor must fill out this form. The form evaluates the intern's performance for each ELCC standard at the building and district levels. (Please see the form in the Appendix for directions.) The Final Evaluation of the internship by the College Supervisor will be based upon evaluation of the internship artifacts based upon the rubrics, as well as reviewing the intern self-evaluation and the participating professional final internship evaluation.

WORDS OF WISDOM ABOUT YOUR EDUCATIONAL LEADERSHIP INTERNSHIP FIELD EXPERIENCE

Ideas for preparing/amending the Internship Proposal:

Choose finite, specific Intern Leadership Activities that meet each of the ELCC Standards and each element (beginning/middle/end)

Choose Win/Win/Win Intern Leadership Activities.

Get out of your comfort zone, choose CHALLENGING activities.

Numbering of your proposal is very important. You will use the numbers in all reports

Opportunities will present themselves. Most people amend their proposal one or more times.

Ask other interns who you know what Intern Leadership Activities they are engaged in.

Brainstorm assignments for each of the ELCC Standard elements with other interns in your building/district

Consider assignments at other building/levels in your district or in other districts

Request opportunities to “lead” your building AND other buildings in your district at every level (Elementary, Middle, High School)

Consider negotiating more time to shadow people in your district or others

Negotiate the use of substitute pay for time outside of your classroom

It is very important to learn how to organize from the beginning:

Keep all documentation/work to be able to choose which documentation you want to display in your E-Portfolio

Fill out the Leadership Activity Hours Accrued Chart monthly

Try to set aside 15 minutes to do your Daily Logs each day you work

Compile and submit your Monthly Reports on time

Remember that reflection is often the greatest learning experience. Do it thoughtfully!

Think about what you need to have/do in the end in relation to the Portfolio, Self-Evaluation, Final Reflection.

REMEMBER that your Portfolio tells the story of your internship. Daily Logs, Monthly Reports, Documentation and your Final Reflection must align with your Final Proposal and each other.

Your Internship is an opportunity to practice school administration with a safety net. It may well be the best opportunity you ever have for personal and professional growth. Take advantage of it!

ELCC Standards & Standard Elements for Proposal Development

Note: Below are listed the ELCC Building Level leadership Standards and Elements. The building and district level standards are virtually interchangeable. The building leader leadership standards may also apply to district level leadership by inserting the word “district” where the word “school” applies.

ELCC Standard 1: A building-level education leader applies knowledge that promotes the success of every student by collaboratively facilitating the development, articulation, implementation, and stewardship of a shared school vision of learning through the collection and use of data to identify school goals, assess organizational effectiveness, and implement school plans to achieve school goals; promotion of continual and sustainable school improvement; and evaluation of school progress and revision of school plans supported by school-based stakeholders.

ELCC Standard Element 1.1: Candidates understand and can collaboratively develop, articulate, implement, and steward a shared vision of learning for a school.

ELCC Standard Element 1.2: Candidates understand and can collect and use data to identify school goals, assess organizational effectiveness, and implement plans to achieve school goals.

ELCC Standard Element 1.3: Candidates understand and can promote continual and sustainable school improvement.

ELCC Standard Element 1.4: Candidates understand and can evaluate school progress and revise school plans supported by school stakeholders

ELCC Standard 2: A building-level education leader applies knowledge that promotes the success of every student by sustaining a school culture and instructional program conducive to student learning through collaboration, trust, and a personalized learning environment with high expectations for students; creating and evaluating a comprehensive, rigorous and coherent curricular and instructional school program; developing and supervising the instructional and leadership capacity of school staff; and promoting the most effective and appropriate technologies to support teaching and learning within a school environment.

ELCC Standard Element 2.1: Candidates understand and can sustain a school culture and instructional program conducive to student learning through collaboration, trust, and a personalized learning environment with high expectations for students.

ELCC Standard Element 2.2: Candidates understand and can create and evaluate a comprehensive, rigorous, and coherent curricular and instructional school program.

ELCC Standard Element 2.3: Candidates understand and can develop and supervise the instructional and leadership capacity of school staff.

ELCC Standard Element 2.4: Candidates understand and can promote the most effective and appropriate technologies to support teaching and learning in a school environment.

ELCC Standard 3: A building-level education leader applies knowledge that promotes the success of every student by ensuring the management of the school organization, operation, and resources through monitoring and evaluating the school management and operational systems; efficiently using human, fiscal, and technological resources in a school environment; promoting and protecting the welfare and safety of school students and staff; developing school capacity for distributed leadership; and ensuring that teacher and organizational time is focused to support high-quality instruction and student learning.

ELCC Standard Element 3.1: Candidates understand and can monitor and evaluate school management and operational systems.

ELCC Standard Element 3.2: Candidates understand and can efficiently use human, fiscal, and technological resources to manage school operations.

ELCC Standard Element 3.3: Candidates understand and can promote school-based policies and procedures that protect the welfare and safety of students and staff within the school.

ELCC Standard Element 3.4: Candidates understand and can develop school capacity for distributed leadership.

ELCC Standard Element 3.5: Candidates understand and can ensure teacher and organizational time focuses on supporting high-quality school instruction and student learning.

ELCC Standard 4: A building-level education leader applies knowledge that promotes the success of every student by collaborating with faculty and community members, responding to diverse community interests and needs, and mobilizing community resources on behalf of the school by collecting and analyzing information pertinent to improvement of the school's educational environment; promoting an understanding, appreciation, and use of the diverse cultural, social, and intellectual resources within the school community; building and sustaining positive school relationships with families and caregivers; and cultivating productive school relationships with community partners.

ELCC Standard Element 4.1: Candidates understand and can collaborate with faculty and community members by collecting and analyzing information pertinent to the improvement of the school's educational environment.

ELCC Standard Element 4.2: Candidates understand and can mobilize community resources by promoting an understanding, appreciation, and use of diverse cultural, social, and intellectual resources within the school community.

ELCC Standard Element 4.3: Candidates understand and can respond to community interests and needs by building and sustaining positive school relationships with families and caregivers.

ELCC Standard Element 4.4: Candidates understand and can respond to community interests and needs by building and sustaining productive school relationships with community partners.

ELCC Standard 5: A building-level education leader applies knowledge that promotes the success of every student by acting with integrity, fairness, and in an ethical manner to ensure a school system of accountability for every student's academic and social success by modeling school principles of self-awareness, reflective practice, transparency, and ethical behavior as related to their roles within the school; safeguarding the values of democracy, equity, and diversity within the school; evaluating the potential moral and legal consequences of decision making in the school; and promoting social justice within the school to ensure that individual student needs inform all aspects of schooling.

ELCC Standard Element 5.1: Candidates understand and can act with integrity and fairness to ensure a school system of accountability for every student's academic and social success.

ELCC Standard Element 5.2: Candidates understand and can model principles of self-awareness, reflective practice, transparency, and ethical behavior as related to their roles within the school.

ELCC Standard Element 5.3: Candidates understand and can safeguard the values of democracy, equity, and diversity.

ELCC Standard Element 5.4: Candidates understand and can evaluate the potential moral and legal consequences of decision making in the school.

ELCC Standard Element 5.5: Candidates understand and can promote social justice within a school to ensure that individual student needs inform all aspects of schooling.

ELCC Standard 6: A building-level education leader applies knowledge that promotes the success of every student by understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context through advocating for school students, families, and caregivers; acting to influence local, district, state, and national decisions affecting student learning in a school environment; and anticipating and assessing emerging trends and initiatives in order to adapt school-based leadership strategies.

ELCC Standard Element 6.1: Candidates understand and can advocate for school students, families, and caregivers.

ELCC Standard Element 6.2: Candidates understand and can act to influence local, district, state, and national decisions affecting student learning in a school environment.

ELCC Standard Element 6.3: Candidates understand and can anticipate and assess emerging trends and initiatives in order to adapt school-based leadership strategies.

NCATE Assessment: #3 SBL and #7 SDL Content-Based Assessment--Application of Content, Portfolio, Application of ELCC Standards in Practice during Internship Parts 1 and 2

Overview

Assessment SBL#3 and SDL #7 are culminating assignments required for candidates' completion of EDA 547 Internship Part 2. The assessment consists of an E-Portfolio accompanied by reflections within which candidates depict their internship experiences via artifacts, using ELCC Standards at both building and district levels as the organizational framework. Attention to both building and district levels is required because, upon admission to graduate leadership study, candidates are approved by faculty for both SBL and SDL programs, and because effective building leaders possess the district perspective and effective district leaders possess the building perspective.

The internships upon which candidates' Portfolios are based for Assessment 3 are credit-bearing, graduate courses offered through EDA 546/ 547 for School Building Leaders (SBL) and School District Leaders (SDL) that provide candidates with school-based administrative/leadership experiences. The internships together must include a minimum of 600 hours, of which no fewer than 100 hours must focus on district level leadership experience. The hours, including those that focus on district leadership, are documented by candidates' on-site supervisors (cooperating professional mentors). The actual length of the internship depends on meeting the objectives the candidates articulate in their internship proposals submitted to, and approved by, the Internship Coordinator as the candidates' internship contracts. That is, candidates are expected to fulfill their contracts even if more hours are necessary than originally anticipated. The internship experiences place candidates in active, authentic administrative and leadership roles. There are opportunities for the gradual assumption of real responsibility (within the legal limits of delegated authority). College professors conduct seminars throughout the EDA 546/547 internship experiences to ensure candidates are supported and are involved in authentic work. In addition, College supervisors are assigned to interface with the interns and on-site cooperating professional mentors.

The Portfolio requires that candidates select artifacts from their internship experiences that are representative of their real responsibilities and authentic leadership roles. Candidates accompany the artifacts with reflections within which they draw conclusions regarding how their visions of leadership unfolded in rich, in-depth and authentic experiences; the reflections explain the significance of the Portfolio artifacts for portraying those conclusions. The College of Saint Rose Educational Intern Leadership Activities were designed to support and gain experience within the ELCC Standards 1-6 and respective elements of each standard. These activities provide the framework for the E-Portfolio. Candidates' fidelity to the ELCC Standards will be gauged by faculty evaluating the E-Portfolio required for Assessment SBL#3 and SDL#7.

Expectations for EDA 546/547 internship performance are described in Assessment 4, which is conducted by cooperating professionals and College supervisors for candidates' ability to demonstrate their ability to meet ELCC Standards (see description of Assessment 4). Certain internship activities address multiple standard elements. An intern must submit a minimum of 20 separate internship activities covering the entire range of the 25 standard elements over the six ELCC standards. For a detailed description of the links between intern activities and the ELCC standards, see the Internship Guide section: *Description of the ELCC Standards, Possible Internship Activities, Tasks and Documentation*. The interns produce documentation to substantiate successful completion of the Intern Leadership Activities. Interns provide assurances that they assumed responsibility for administrative and

leadership functions in executing the assignments and they report which of the ELCC Standards at building and district levels were addressed as they completed the leadership functions described in the activities.

NCATE: Assessment #3 SBL and #7 SDL Portfolio: Application of ELCC Standards in Practice

Candidates engage in the exercise of assembling of E-Portfolios that contain artifacts representing the authentic nature and worth of their experiences over the past 600+ hours of their internships. The portfolios are framed by the ELCC Standards 1-6 and the 25 respective standard elements which guide the Intern leadership Activities. Each section of the Portfolio is accompanied by a reflection. The reflections provide context for the artifacts and, together with the artifacts, demonstrate candidates' visions for mastery of the ELCC Standards 1-6 which indicate the extent to which the candidates' visions for competency-achievement were realized.

In assembling their Portfolios, candidates are asked to consider the nature of their internships in terms of substance, authenticity, alignment with Standards 1-6 and impact on their development as SBL/SDL leaders. The EDA 546/547 internship experiences require candidates to apply concepts, knowledge and skills from study and previous experience to actual problems, to become involved in "real world" activities, tasks, challenges, opportunities and day-to-day administrative/leadership responsibilities; artifacts within Portfolios are demonstrative of candidates' degree of success in applying their leadership skills and abilities to this authentic work. Thus, in assembling their E-Portfolios and reflecting on the artifacts contained in them, candidates:

Include in the E-Portfolio documentation **at least one** artifact for every ELCC Standard Element (there are 25 total elements for BOTH Building and District Level). Certain internship activities can address multiple standard elements. An intern shall submit a minimum of 20 separate internship activities covering the entire range of the 25 standard elements over the six ELCC standards.

The documentation should represent the candidates' **best** work in meeting each of the Standard Elements through authentic leadership work at the building or district level. Accompany each of the ELCC Building and District Standards documentation sections with a reflection paper from a leadership perspective. Demonstrate in each of the six ELCC Standards, through the reflections combined with the artifacts, the context for the work represented by the artifacts, the visioning that propelled the leadership work depicted by the artifacts, and the extent to which the visions were realized. Thus, the reflections and artifacts together explain candidates' responsibility or involvement over time for the leadership initiatives represented by the artifacts, the value of their leadership roles in advancing the mission of the school or district, the processes and desired outcomes of the leadership activities, and the ELCC Standards that are applicable.

In a final section of the E-Portfolio, through a summative reflection, describe their EDA 546/547 Internships at the "macro" level, telling what they have learned in global terms. Candidates comment on the quality of the internship as a whole and how the internships impacted their personal definitions of "leadership" at building and district levels, their personal leadership growth, and what they learned about the importance of the visioning process as a leadership responsibility.

Rubrics: Assessment #3 (SBL) Assessment #7 (SDL) EDA 546/547 - Internship Portfolio with Reflections for ELCC 1.1-6.3

This set of rubrics is based on the ELCC 2011 standards and elements. This applies to students who began internships in Summer 2014 and thereafter. Candidates conduct a series of Leadership Activities gaining competence within each element of the ELCC Standards. Due to the complex nature of some Leadership Activities, some activities may apply to more than one ELCC standard building or district element. Candidates are required to perform a minimum of 20 Leadership Activities (to address all 25 elements for BOTH building and district leadership). See the description of suggested Leadership Activities for more information. Candidates are required to complete a minimum of 600 hours, 100 of which must be engaged at the district level. Candidates are expected to design and experience both building and district leadership experiences and document within the E-Portfolio.
